## **CLAIMS**

## What is claimed is:

- 1. A facial skin cleansing and conditioning composition consisting essentially of:
  - a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
  - an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and polysorbate 20;

an emollient including mineral oil and cocoa butter (theobrama cacao);

- a protectant and moisturizer including aloe vera (aloe barbadensis);
- a neutralizer including triethanolamine;
- a chelator including trisodium EDTA;
- a preservative including methyl paraben, propylparaben and diasolidinyl urea; and a diluent.
- 2. A facial skin cleansing and conditioning composition consisting essentially of:
  - a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
  - an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and polysorbate 20;

an emollient including mineral oil and cocoa butter (theobrama cacao);

- a protectant and moisturizer;
- a neutralizer including triethanolamine;
- a chelator including trisodium EDTA;
- a preservative including methyl paraben, propylparaben and diasolidinyl urea; and

a diluent.

3. A facial skin cleansing and conditioning composition consisting essentially of: a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA; an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and polysorbate 20;

an emollient including mineral oil and cocoa butter (theobrama cacao);
a protectant and moisturizer including aloe vera (aloe barbadensis);
a neutralizer including triethanolamine;
a chelator including trisodium EDTA;
a preservative including methyl paraben, propylparaben and diasolidinyl urea;
a diluent; and
an antioxident including vitamin E.

4. A facial skin cleansing and conditioning composition consisting essentially of:
a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA;
an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE;
an emollient including mineral oil and cocoa butter (theobrama cacao);
a protectant and moisturizer including aloe vera (aloe barbadensis);
a neutralizer including triethanolamine;
a chelator including trisodium EDTA;
a preservative including methyl paraben, propylparaben and diasolidinyl urea; and

a diluent.

A facial skin cleansing and conditioning composition consisting essentially of: a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA; an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and

an emollient:

- a protectant and moisturizer including aloe vera (aloe barbadensis);
- a neutralizer including triethanolamine;
- a chelator including trisodium EDTA;

polysorbate 20;

- a preservative including methyl paraben, propylparaben and diasolidinyl urea; and a diluent.
- 6. A facial skin cleansing and conditioning composition consisting essentially of:
  - a mild skin abrasive including corundum powder of substantially uniform size and

shape having a purity of at least 99% and a size of about 120 FEPA;

- an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE and polysorbate 20;
- an emollient including mineral oil and cocoa butter (theobrama cacao);
- a protectant and moisturizer including aloe vera (aloe barbadensis);
- a neutralizer including triethanolamine;
- a chelator including trisodium EDTA;
- a preservative including methyl paraben and propylparaben; and a diluent.

A

- 7. A facial skin cleansing and conditioning composition consisting essentially of: a mild skin abrasive including corundum powder of substantially uniform size and shape having a purity of at least 99% and a size of about 120 FEPA; an emulsifier including stearic acid, cetyl alcohol, and glyceryl sterate SE;
  - an emollient;
  - a protectant and moisturizer;
  - a neutralizer including triethanolamine;
  - a chelator including trisodium EDTA;
  - a preservative including methyl paraben and propylparaben; and a diluent.
